# AQURON 300

## 3 IN 1 LIQUID ADDITIVE

### Why use **AQURON 300** additive in concrete?

AQURON 300 is a multi-purpose additive that produces a hydrogel within the porosity to create impermeable concrete.

AQURON 300 improves hydration to increase compressive, flexural and tensile strengths in concrete. AQURON 300 provides internal corrosion protection.

### Other benefits include:

- Reduces shrinkage
- Improves density
- Internal corrosion protection
- Integral waterproofing
- Improves workability of concrete
- No other additives required
- Easy to use (liquid not powder)
- Automatic dosing equipment available
- 100% environmentally friendly
